Comments: Complaint Inspection

This inspection is to address a complaint made by a public person. The complaint indicated that the food facility Burger King has numerous flies and grease smoke that is visible to the cash register area.

Upon inspecting the food facility, it was found that the complaint was valid. Seven (7) to Eight (8) flies were observed in a fifteen (15) minute period. The facility ambient temperature was 88 (88°F), grease could be smelled as well as the fumes have an affect on the eyes, in the form of irritant.

To minimize food contamination via insects, pest, rodants, and other vectors; install air curtains (SUBMIT CUT SHEETS TO ENVIRONMENTAL HEALTH DEPT.) at all points of access such as doors. Lower the facility ambient temperature. \* Each food facility shall be kept free of vermin rodants cockroaches flies (114259.1, 114259.4, 114259.5)

Have the exhaust hoods be repaired, provide air balance report to this EH dept. Submit plans for review if replacements need to occur. (114149)

This complaint inspections may be subjected to fees. A re-inspection shall be scheduled in two weeks time.
